8th March 2025

Dear Parents/ Carers,

Next week marks the start of British Science Week 2025, and we are looking forward to creating exciting and memorable STEM opportunities for the children and families of St. Paul's.

On Tuesday 11th March, we will be welcoming **West End in Schools** into school. The children, from Y1 to Y6, will be taking part in **Our World, Our Future: The Climate Change** workshops, as part of the Change and Adapt theme of this year's Science week.

As you can appreciate, the cost of a whole school workshop is very high, therefore, we are inviting parents to make a **£2 contribution** towards this exciting and enriching experience. The donation can be **paid via the Gateway App**. Thank you in advance for your support in this, as it allows us to continue to provide these important experiences for your children.

St. Paul's Science Project and Selfie competition

As a school, we would also like to invite children to take part in the 'Science Selfie' competition. We would like children to bring in, or email in, a photo of them taking part in some exciting science fun at home, by **Monday 24th March 2025**. There will be prizes for the funniest, most exciting or most original. We would also love to see any other photos, results or findings from any home science. Some great ideas here:

<https://www.weareteachers.com/easy-science-experiments/>

We look forward to enjoying Science week with the children and sharing further news and photos soon!

Best wishes

Mrs Scragg
Science Lead
